I spoke with Lyle. He still wants to permit the site, and told me he will reclaim it as soon as it is dry enough and then wants to do what he can to get the permit approval. I told him that, after 1 year with an unapproved permit, we need him to act soon or else we will deny the transfer and return his \$1000. He said he would call Dale and would let me know when he goes to reclaim so I can meet him out there.

I will finish another task or two this week to drop the list down again.

This transfer is the "straw" that puts our pending task list at 6 pages--it's the only transfer and the only item on page 6. Should we just deny it and send the money back to Lyle Jessop?
